

# OpenAutonomy.com

# CONTRIBUTOR OVERVIEW

## Our Vision

We envision a future where autonomous mining thrives through interoperability and healthy competition, where mining companies can freely choose the best solutions for their needs across the entire autonomous technology stack.

**OpenAutonomy.com** is to serve as the mining industry's premier educational resource and collaboration platform for open autonomy, advancing the adoption of interoperable autonomous solutions. We're bringing together leading organizations to share technical knowledge, implementation insights, and industry perspectives - all without the influence of paid promotion.

## WHY PARTNER WITH US?

By partnering with OpenAutonomy.com, you contribute to an ecosystem that empowers mining companies to make informed decisions and help shape an open and innovation-driven future for mining.

- ✓ **Industry Recognition:** Establish your organization as a thought leader through contributions that demonstrate your technical expertise and industry knowledge.
- ✓ **Knowledge Exchange:** Join a community of forward-thinking organizations sharing insights about autonomous mining technology, implementation challenges, and emerging standards.
- ✓ **Authentic Visibility:** Gain meaningful exposure through a partner profile page and **content that receives promotion** across our platform and LinkedIn channel.
- ✓ **Commitment to Integrity:** Publish your content on a platform that maintains strict independence from commercial interests, ensuring reader trust and engagement.
- ✓ **Individual Contributors Welcome:** Beyond organizational partnerships, we also welcome individual technical professionals to share their expertise and build their personal brand.

## HOW IT WORKS

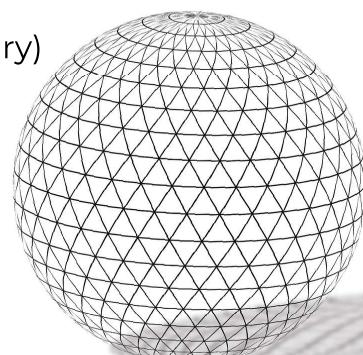

### Contribution Process

- 1. Initial Conversation:** We'll discuss your organization's expertise and potential contributions
- 2. Partner Profile Creation:** We'll establish your organization's presence on our platform
- 3. Content Submission:** Submit articles with supporting imagery
- 4. Editorial Process:** Your content undergoes technical and editorial review
- 5. Publication & Promotion:** Content is published and promoted through our channels

### Content Guidelines

Contributors provide two to four articles per quarter covering NEWS, TECHNOLOGY, PROJECTS, and PARTNERSHIPS.

- Focus on educational value and technical insights
- Length: 500-2500 words (ideal: 800-1200 words)
- Include one high-quality image (additional images only if necessary)
- Maintain non-promotional, industry-focused tone

# OUR COMMITMENT

**OpenAutonomy.com** maintains strict independence from commercial interests. While we actively promote our partners' technical contributions, we do not accept payment for content placement. Our platform's value comes from the genuine expertise shared by our partner organizations.
